SUMMARY

Passionate Computer Science student with a strong interest in AI/ML, computer vision, and software development. Skilled in Python and various machine learning libraries with hands-on project experience. Strong problem-solving, research, and collaboration abilities, seeking opportunities to build real-world AI solutions and grow as a developer.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL, HTML5, CSS3

Frameworks & Libraries: Django, MediaPipe, NumPy, Pandas, Matplotlib, Scikit-learn, OpenCV

Tools & Platforms: Git, GitHub, VS Code, MySQL (Oracle), Eclipse

PROJECTS & EXPERIENCE

AI Fitness & Pose Tracking System

March 2026 – Present

Computer Vision & Web Application

Python, MediaPipe, OpenCV, Pandas

- Developed a real-time AI pose tracking system for exercise detection and repetition counting
- Utilized MediaPipe and OpenCV for human pose estimation and movement analysis
- Built a Django-based dashboard for workout tracking and performance visualization

Vehicle Intelligence System

Oct 2025 – Jan 2026

AI/ML & Computer Vision Project

Python, OpenCV, YOLO, MySQL

- Developed an AI-powered system for vehicle detection and license plate recognition
- Utilized YOLO and OpenCV for real-time vehicle tracking and video analysis
- Designed a MySQL database for storing vehicle records and violation details

EDUCATION

University of Calicut

Aug 2023 – May 2026

Bachelor of Science in Computer Science

CGPA: 8.13/10

ACHIEVEMENTS

- Won **1st Prize** in the Project Expo at IHRD Tharang 2K24, organized by Institute of Human Resources Development (IHRD), Kerala.
- Secured **3rd Prize** in the National Level Hackathon Competition at IHRD Tharang 2K24, organized by Institute of Human Resources Development (IHRD), Kerala.
- Won **1st Prize** in a District-Level AI Quiz Competition organized by Institute of Human Resources Development (IHRD), Kerala.

CERTIFICATIONS

- Introduction to Software Development — Amazon (Jan 2026)
- Object-Oriented Programming in Python — Duke University (Dec 2025)
